**Notice of Provision of Consumer Broadband Only Loop Service On A
Permissive Detariffed Basis
CC Docket No. 02-33**

The Federal Communications Commission in its March 30th, 2016 Rate of Return Reform Order established revised cost allocation procedures to provide support for broadband-capable network loop costs. Therein, the Consumer Broadband Only Loop (CBOL) rate was established as means of recovering a portion of the loop costs associated with providing broadband only service. The Federal Communications Commission afforded carriers the option of tariffing the rate in their interstate common line tariff, or to offer the service on a permissively detariffed basis. Today Callaway Telephone Company provides notice of its intent to offer the Consumer Broadband Only Loop service on a permissive detariffed basis, effective February 1, 2017.

Callaway Telephone Company will post the rates, terms and conditions of its Consumer Broadband Only Loop service to its website of www.arvig.com. The Company will also make physical copies of its offering reflecting the rates, terms and conditions available for public inspection at its business office, at the address provided below:

Callaway Telephone Company
150 2nd St. SW
Perham, MN 56573

The permissive detariffing of Callaway Telephone Company's Consumer Broadband Only Loop offering, will apply to the entirety of the Company's study area.

Callaway Telephone Company currently has only one customer for its Consumer Broadband Only Loop and other broadband Internet access transmission service. That customer is the Company's own non-regulated Internet service provider (ISP) affiliate. The Company's affiliated ISP purchases Consumer Broadband Only Loop and broadband Internet access transmission service for use as an input for the broadband Internet access services it offers to residential and business end-user customers. The provision of the Consumer Broadband Only loop service as a detariffed service will have no effect on the end-user services provided by the Company's affiliated ISP.

On December 30, 2016, Callaway Telephone Company furnished its affiliated ISP with the attached memorandum, which notifies the ISP of the Company's plan to provide its Consumer Broadband Only Loop service on a detariffed basis.
